

TALKING WITH YOUR CHILD MAKES HER WORLD BIGGER

Witamy! • Welkom! • Welcome!
أبجرحم و الهدأ • Bienvenidos!
Hos geldiniz!

... YOU CAN ALSO DO THAT IN YOUR MOTHER TONGUE!

TIPS

- Do you want to teach your child many new words? Tell her what you are doing when you are together. For example when you are shopping. Your child learns a lot during daily activities, as long as you say the words.
- Small children like to watch pictures. Talk about them together.
 - What pictures do you see?
 - What are the children already able to point out?
 - What can they already say themselves?
- Look through a picture book together. Tell stories about what you see.
- Children always enjoy playing games together. Talk about what is happening during the game.
- Singing songs also teaches your child a lot.
- Do you want to teach your child about the world? Tell or read stories to her.

I learn from him and he from me

TIP:
Choose the language that suits you!

DID YOU KNOW THAT?

If your child knows your mother tongue well, it is easier for her to learn a new language!

LEARN DUTCH

- Would you like to learn Dutch together? Then look at picture dictionaries together. These are books with pictures and words.
- Watch and listen together to a digital book. The Dutch text is read aloud. So you can hear the right pronunciation right away.
- Watch DVDs of books together. The Dutch text is also read aloud here.

Picture dictionary

DID YOU KNOW THAT?
Borrowing from the library
is free for all children!

THE LIBRARY HELPS YOU

- The library has picture dictionaries, DVDs and games you can borrow.
- Of course you can also borrow books. Also in your native language!
- And of course we will be happy to help you at the library!

Do you want to learn Dutch better yourself?
This is also possible at the library. Ask for the Taalhuis.
